DETAILED ACTION

- This action is responsive to the following communication: an amendment filed on 2/9/2009.

Response to Arguments

- Applicant's arguments, see pages 5-6, filed 2/9/2009, with respect to claims 1, 12, and 13 have been fully considered and are persuasive. The 35 USC 112, 2nd paragraph rejection of 1, 12, and 13 has been withdrawn.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 12-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 12 recites the limitation "said each page" in claim 12, line 4. There is insufficient antecedent basis for this limitation in the claim. Claim 13 is dependent upon rejected claim 12, therefore, is rejected for the same rationale.

Allowable Subject Matter

Claims 1, 5-6, 11 are allowed.

Claims 12-13 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

The following is an examiner's statement of reasons for allowance: The cited prior arts (US 5884120 to Ito et al; US 5627995) of record teach a method of determining whether an entire image data is within reproduction range, however, the prior arts fail to teach and/or suggest "a determiner for determining whether or not image data on each page are

within a color reproduction range of the output device, wherein the determining determines a number of results equal to the number of the plural pages” and in combinations of other feature as cited in independent claims 1 & 12.
